Commissioner for Patents

The information disclosure statement filed 08/10/05 fails to comply with 37 CFR 1.97(d) because even though it contains a statement as specified in 37 CFR 1.97(e) the IDS does include three (3) references that were not first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the IDS. For instance, documents US 5432020, US 6562500 and US 6696192 were not cited first cited in the communication from the foreign patent office (Refer to the Notice of Reasons for Rejection also submitted along with the IDS form and the references).

Thus, the IDS does not satisfy the requirement that EACH item of information contained in the IDS was first cited in any communication from a foreign patent application. Accordingly, the IDS has been placed in the application file, but the information referred to therein has not been considered. See MPEP 602 [R-2] Information Disclosure Statement for more details.
